

### **a kestrel for a pdf**

The name kestrel (from French *cr cerelle*, derivative from *cr celle*, i.e. ratchet) is given to several different members of the falcon genus, *Falco*. Kestrels are most easily distinguished by their typical hunting behaviour which is to hover at a height of around 10–20 metres (35–65 ft) over open country and swoop down on prey, usually small mammals, lizards or large insects.

### **Kestrel - Wikipedia**

The common kestrel (*Falco tinnunculus*) is a bird of prey species belonging to the kestrel group of the falcon family Falconidae. It is also known as the European kestrel, Eurasian kestrel, or Old World kestrel. In Britain, where no other kestrel species occurs, it is generally just called "the kestrel".. This species occurs over a large range.

The kestrel feeds largely on small mammals, especially the short-tailed vole, and small birds such as house sparrows . Invertebrates are also very important components of the diet; earthworms taken from cereal fields are particularly important during winter . Kestrels hunt by sight, and when hovering they are able to remain still even in strong winds.

Kestrel Meter 3000 Wind Meter. The Kestrel 3000 Pocket Weather Meter has traditionally been the most popular meter for firefighters for controlled burns and such, easily and rapidly giving wind and relative humidity readings. Before the Kestrel 3000 came along, the technology required to gather this information would require masses of equipment, in particular a Sling.

The machine seems to have been packaged especially for Lidl - the manual is labelled with a Lidl logo. It has a 3 year warranty (just keep your receipt), so the fact that it has been 'branded' by Lidl and has been sold by them before made me feel more secure about this warranty, rather than them having bought a job lot of overlockers they are selling off.
