Quantitative Versus Qualitative Research, or Both?

In the design of experiments, optimal designs (or optimum designs) are a class of experimental designs that are optimal with respect to some statistical criterion. The creation of this field of statistics has been credited to Danish statistician Kirstine Smith.. In the design of experiments for estimating statistical models, optimal designs allow parameters to be estimated without bias and with ...

UPDATED 24 January 2012 What We Need for 21st Century Combat? "The way to build aircraft or anything else worthwhile is to think out quietly every detail, analyze every situation that may possibly occur, and, when you have it all worked out in practical sequence in your mind, raise heaven and earth and never stop until you have produced the thing you have started to make."
