

little walrus warning a pdf

The ivory trade is the commercial, often illegal trade in the ivory tusks of the hippopotamus, walrus, narwhal, mammoth, and most commonly, African and Asian elephants.. Ivory has been traded for hundreds of years by people in regions such as Greenland, Alaska, and Siberia. The trade, in more recent times, has led to endangerment of species, resulting in restrictions and bans.

Ivory trade - Wikipedia

The baculum (also penis bone, penile bone, or os penis, or os priapi) is a bone found in the penis of many placental mammals. It is absent in the human penis, but present in the penises of other primates, such as the gorilla and chimpanzee. The bone is located above the male urethra, and it aids sexual reproduction by maintaining sufficient stiffness during sexual penetration.
