Water Pollution Control - A Guide to the Use of Water Quality Management Principles Edited by Richard Helmer and Ivanildo Hespanhol Published on behalf of

Water Pollution Control - A Guide to the Use of Water

Water resources management is a key element of Brazil's strategy to promote sustainable growth and a more equitable and inclusive society. Brazil's achievements over the past 70 years have been closely linked to the development of hydraulic infrastructure for hydroelectric power generation and just recently to the development of irrigation infrastructure, especially in the Northeast region.

Ballast Water History is reported on a "BW Event" basis. Rather than reporting discharge, management and source events on a single line, as in earlier BWMR forms, each ballast water event is now reported on a separate line. For each tank, fill in ballast water events in descending date order, with the most recent discharge at the top.
