Mathematics (from Greek μάθημα, "knowledge, study, learning") includes the study of such topics as quantity, structure, space, and change.. Mathematicians seek and use patterns to formulate new conjectures; they resolve the truth or falsity of conjectures by mathematical proof. When mathematical structures are good models of real phenomena, then mathematical reasoning can ...

Parents: Monitor the amount of time and the time of day your children spend playing video games and using technology. Caution: Technology use can have negative affects on the body, and may affect sleep and concentration. Dunckley (2011) indicated when video games and electronic devices are used in the dark, the unnatural brightness of the screen inhibits the body from producing melatonin, the ...

It is a responsibility we are failing to meet. According to statistics from the U.S. Department of Education, the gap in eighth-grade reading and math test scores between low-income students and their wealthier peers hasn't shrunk at all over the past 20 years. (The gap between poor and wealthier fourth-grade students narrowed during those two decades, but only by a tiny amount.)

In mathematics, a tensor is an arbitrarily complex geometric object that maps in a (multi-)linear manner geometric vectors, scalars, and other tensors to a resulting tensor. Thereby, vectors and scalars themselves, often used already in elementary physics and engineering applications, are considered as the simplest tensors.
