A diary is a record (originally in handwritten format) with discrete entries arranged by date reporting on what has happened over the course of a day or other period. A personal diary may include a person's experiences, thoughts, and/or feelings, excluding comments on current events outside the writer's direct experience.

Writing therapy is a form of expressive therapy that uses the act of writing and processing the written word as therapy. Writing therapy posits that writing one's feelings gradually eases feelings of emotional trauma. Writing therapeutically can take place individually or in a group and it can be administered in person with a therapist or remotely through mailing or the Internet.

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

1. Harold Wilensky put it baldly and succinctly: "Economic growth is the ultimate cause of welfare state development." Harold Wilensky, *The Welfare State and Equality* (Berkeley: University of California Press, 1975), p. 24. 2. Thus, Flora and Alber find no correlation between levels of industrialization and social insurance programs of 12 European nations between the 1880s and the 1920s.

Introduction The ability to communicate ideas effectively is increasingly recognized as critical to the success of the healthcare system. Effective communication is required not only for successful interactions between individuals and their health care providers (1) but also between health care providers themselves.
