The Certified Fire Protection Specialist Board (CFPS) was formed in 1971 for the purpose of documenting competency and offering professional recognition for individuals involved in fire protection, fire safety, and fire prevention. In 1998, CFPS and NFPA partnered to jointly offer this highly regarded certification program.

The National Electrical Code (NEC), or NFPA 70, is a regionally adoptable standard for the safe installation of electrical wiring and equipment in the United States. It is part of the National Fire Codes series published by the National Fire Protection Association (NFPA), a private trade association. Despite the use of the term "national", it is not a federal law.

A fire alarm system has a number of devices working together to detect and warn people through visual and audio appliances when smoke, fire, carbon monoxide or other emergencies are present. These alarms may

be activated automatically from smoke detectors, and heat detectors or may also be activated via manual fire alarm activation devices such as manual call points or pull stations.
