The first type of question consists of a reading passage followed by a question based on the text. Both short and long passages are provided.

Sample Questions for Students - The College Board

In statistics and quantitative research methodology, a data sample is a set of data collected and/or selected from a statistical population by a defined procedure. The elements of a sample are known as sample points, sampling units or observations [citation needed]. Typically, the population is very large, making a census or a complete enumeration of all the values in the population either ...

In statistics, quality assurance, and survey methodology, sampling is the selection of a subset (a statistical sample) of individuals from within a statistical population to estimate characteristics of the whole population. Statisticians attempt for the samples to represent the population in question. Two advantages of sampling are lower cost and faster data collection than measuring the ...
