Over the last 20 years, there has been increasing recognition of the role that psychological trauma plays in a wide range of health, mental health and social problems. When people think of trauma, they think about experiences like war and the diagnosis of post-traumatic stress disorder. The reality ...

The ICSPs are designed to improve health care access, coordination and outcomes. This is done through payment reform by establishing partnerships between managed care organizations, primary, acute, long-term care and mental health providers. These providers serve seniors and people with disabilities in managed care programs.
